

21.

LIST OF PUBLISHED WRITINGS
BY SIR WILLIAM TURNER,

K.C.B., F.R.S.L., P.R.S.E.

1854-1910

LIST OF PUBLISHED WRITINGS BY SIR WILLIAM TURNER,

K.C.B., F.R.S.L., P.R.S.E.

1854-1910.

I. HUMAN ANATOMY AND PHYSIOLOGY.

1. Examination of the Cerebro-spinal Fluid. *Proc. Roy. Soc.*, London, June 1854.

Atlas of Human Anatomy and Physiology, with accompanying Handbook. Folio, eight plates. Edinburgh, W. & A. K. Johnston, 1857. Translated into Arabic and published by John Wortabet: Beyrout, 1874.

Observations on the Structure of Nerve Fibres. By Joseph Lister, F.R.S., and Wm. Turner, M.B. *Quart. Journ. Micro. Science*, Oct. 1859.

Remarks on the Musculus Kerato-cricoideus—a Muscle of the Human Larynx. *Proc. Roy. Phys. Soc. Edin.*, vol. 2, 1859; *Edin. Med. Journ.*, Feb. 1860; *Nat. Hist. Review*, Jan. 1862.

Further Observations on the Structure of Nerve Fibres. *Quart. Journ. Micro. Science*, July 1860.

On the Employment of Transparent Injections in the Examination of the Minute Structure of the Human Pancreas. *Quart. Journ. Micro. Science*, July 1860.

On the Mode of Elimination of the Metal Manganese when employed medicinally. *Edin. Med. Journ.*, April 1861.

On the Properties of the Secretion of the Human Pancreas. *Proc. Roy. Soc. Edin.*, vol. 4, 1861; *Journal de l'Anatomie et de la Physiologie*, April 1861.

On Irregularities of the Omo-hyoid Muscle, with remarks on their bearings on the Surgical Anatomy of the Muscle. *Edin. Med. Journ.*, May 1861.

10. On Irregularities of the Pulmonary Artery, Arch of Aorta, and Primary Branches of the Arch, with an attempt to illustrate their mode of origin by a reference to development. *Brit. and Foreign Med.-Chirurg. Review*, July and Oct. 1862.

On a non-striped Muscle connected with the Orbital Periosteum of Man and Mammals. *Nat. Hist. Review*, Jan. 1862; reprinted in *Journal de l'Anatomie et de la Physiologie*, 1862.

On the Anatomical Relations of the Surface of the Tentorium to the Cerebrum and Cerebellum in Man, and the Lower Mammals. *Proc. Roy. Soc. Edin.*, vol. 4, 1862.

On the Existence of a System of Anastomosing Arteries between and connecting the Visceral and Parietal Branches of the Abdominal Aorta. *Brit. and Foreign Med.-Chirurg. Review*, July 1863.

On some Variations in the Arrangement of the Nerves of the Human Body. *Nat. Hist. Review*, Oct. 1864.

On Variability in Human Structure, with illustrations from the flexor muscles of the fingers and toes. *Trans. Roy. Soc. Edin.*, 4to, vol. 24; *Reports Brit. Assoc. Advance. Science*, Birmingham, p. 111, 1865.

On a Supplementary System of Nutrient Arteries for the Lungs. *Brit. and Foreign Med.-Chirurg. Review*, 1865; also *Dublin Med. Press*, 1865; *Reports British Assoc. Advance. Science*, Bath, p. 129, 1864.

Some Malformations of the Organs of Generation: Case 1, In the male; Case 2, Uterus unicornis; Cases 3 and 4, Uterus bicornis unicollis. *Edin. Med. Journ.*, 1865.

Malformations of the Organs of Generation, second series: On Foetation in a Rudimentary Uterine Cornu. *Edin. Med. Journ.*, May 1866.

A Case illustrating the Physiological Action of Iodine Vapour. *St Barthol.'s Hosp. Report*, 1866.

20. The Convolution of the Human Cerebrum topographically considered. *Edin. Med. Journ.*, June 1866. Published separately, Edinburgh, 1866; noticed in *Journal of Anatomy and Physiology*, vol. 1, p. 149, 1867.
- On a Variation in the Origin of the Long Buccal Nerve, as elucidating its Physiology. *Journ. Anat. and Phys.*, vol. 1, p. 83, 1867.
- Reports on the Progress of Anatomy. *Journ. Anat. and Phys.*, vols. 1-10, 1867-76.
- On the Musculus Sternalis. *Journ. Anat. and Phys.*, vol. 1, plate, p. 246, 1867; *Proc. Roy. Soc. Edin.*, vol. 6, p. 65, 1867.
- Note on the Occasional Occurrence of the Musculus Rectus Thoracis in Man. *Proc. Roy. Soc. Edin.*, vol. 6, p. 268, 1868; *Journ. Anat. and Phys.*, vol. 2, p. 392, 1868.
- Notes on Variations in the Origin of the Long Buccal Branch of the Fifth Cranial Nerve. *Proc. Roy. Soc.*, London, June 1868; *Journ. Anat. and Phys.*, vol. 3, p. 198, 1869.
- Heart in which the Superior Vena Cava possessed a Valve at its Auricular Orifice. *Proc. Roy. Soc. Edin.*, vol. 6, p. 455, 1869; *Journ. Anat. and Phys.*, vol. 3, p. 452, 1869.
- Double Ento-Cuneiform Bone. *Journ. Anat. and Phys.*, vol. 3, p. 448, 1869.
- Note of a Case of Displacement of the Submaxillary Glands. *Journ. Anat. and Phys.*, vol. 4, p. 147, 1870.
- Supernumerary Cervical Ribs. *Journ. Anat. and Phys.*, vol. 4, p. 130, 1870.
30. Case in which in Man the Pericardium was unattached to the Diaphragm, with a parallel illustration from the Walrus. *Journ. Anat. and Phys.*, vol. 5, 1871.
- A Rudiment of the Panniculus Carnosus superficial to the Trapezius. *Journ. Anat. and Phys.*, vol. 5, 1871.
- Occurrence of Epicondyloid Foramina in the Humerus of Man. *Journ. Anat. and Phys.*, vol. 6, p. 434, 1872; *Trans. Roy. Soc. Edin.*, vol. 24, p. 176, 1865.
- Note on a M. Tensor Fasciæ Suralis and a Tensor Fasciæ Poplitealis. *Journ. Anat. and Phys.*, vol. 6, 1872.

On the Maternal Sinus Vascular System of the Human Placenta. *Proc. Roy. Soc. Edin.*, vol. 7, 1872.

Variations in the Distribution of the Nerves of the Human Body. *Journ. Anat. and Phys.*, vol. 6, 1872.

Observations on the Structure of the Human Placenta. *Journ. Anat. and Phys.*, vol. 7, 1873.

On an Irregularity of the Pectoralis Major. *Journ. Anat. and Phys.*, vol. 7, p. 327, 1873.

The Convolutions of the Brain in Relation to the Intelligence. *West Riding Asylum Reports*, 1873.

Two Cases of Horse-shoe Kidney. *St Barthol.'s Hosp. Rep.*, vol. 8, 1873; *Journ. Anat. and Phys.*, vol. 7, p. 331, 1873.

40. Further Examples of Variations in the Arrangement of the Nerves of the Human Body. *Journ. Anat. and Phys.*, vol. 8, p. 297, 1874.

The Relation of the Cerebrum to the Outer Surface of the Skull and Head. *Journ. Anat. and Phys.*, vol. 8, p. 142, 1874.

An Illustration of the Relations of the Convolutions of the Human Cerebrum to the Outer Surface of the Skull. *Journ. Anat. and Phys.*, vol. 8, p. 359, 1874.

On a Method of demonstrating the Convolutions of the Brain to the Surface of the Head. *Proc. Roy. Soc. Edin.*, vol. 8, 1875.

Article "Anatomy," *Encyclopædia Britannica*, 9th edition; "Digestive Organs," the same. Expanded into "Introduction to Human Anatomy, including the Anatomy of the Tissues," Edinburgh, 1877. Revised Edition, 1882.

A Human Cerebrum imperfectly divided into two Hemispheres. *Journ. Anat. and Phys.*, vol. 12, 1878.

Case of Supernumerary Incisor Teeth. *Journ. Anat. and Phys.*, vol. 12, 1878.

Note on a Case of Articulation between two Ribs. *Journ. Anat. and Phys.*, vol. 13, 1879.

- A Loop-like Bifurcation of the External Carotid Artery. *Journ. Anat. and Phys.*, vol. 13, 1879.
- Notes on the Dissection of a Negro. *Journ. Anat. and Phys.*, vol. 13, 1879.
50. Report on Recent Memoirs of the Anatomy of the Brain. *Journ. Anat. and Phys.*, vol. 13, 1879.
- A Description of a Cleft Sternum. *Journ. Anat. and Phys.*, vol. 14, 1880.
- Notes on the Dissection of a Second Negro. *Journ. Anat. and Phys.*, vol. 14, 1880.
- Note on Mr Walsham's Observations on the Coronary Vein of the Stomach. *Journ. Anat. and Phys.*, vol. 14, 1880.
- A Secondary Astragalus in the Human Foot. *Journ. Anat. and Phys.*, vol. 17, 1883.
- Some Variations in the Bones of the Human Carpus. *Journ. Anat. and Phys.*, vol. 17, 1883.
- A First Dorsal Vertebra with a Foramen at the Root of the Transverse Process. *Journ. Anat. and Phys.*, vol. 17, p. 255, 1883. A second specimen, *idem*, vol. 18, p. 223.
- Cervical Ribs and so-called Bicipital Ribs in Man, in relation to Corresponding Structures in the Cetacea. *Journ. Anat. and Phys.*, vol. 17, 1883; *Proc. Roy. Soc. Edin.*, vol. 12, p. 127, March 1883.
- Hands and Feet. Health Lectures for the People. Edinburgh Health Society, 1884.
- Absence of the Semimembranosus. *Journ. Anat. and Phys.*, vol. 18, 1884.
60. Absence of Gemelli and Quadratus Femoris. *Journ. Anat. and Phys.*, vol. 18, 1884.
- Hereditary Deformity of the Hand. *Journ. Anat. and Phys.*, vol. 18, 1884.
- Absence of Extensor Carpi Ulnaris and Presence of an Accessory Sural Muscle. *Journ. Anat. and Phys.*, vol. 19, 1885.

The Infra-orbital Suture. *Journ. Anat. and Phys.*, vol. 19, 1885.

Note on another Case of Secondary Astragalus. *Journ. Anat. and Phys.*, vol. 21, 1887.

Human Neck with the Odontoid Process distinct from the Body of the Axis Vertebra. *Journ. Anat. and Phys.*, vol. 24, 1890.

The Cell Theory : Past and Present. Address to the Scottish Microscopical Society, Nov. 1, 1889. *Journ. Anat. and Phys.*, vol. 24, 1890. Separate publication, London, 1890.

Human Cerebrum with a remarkably modified Fronto-Parietal Lobe. *Journ. Anat. and Phys.*, vol. 25, 1891.

A Pair of Supernumerary Teeth in the Molar Region. *Journ. Anat. and Phys.*, vol. 26, 1892.

Transposition of Viscera. *Proc. Anatomical Soc. in Journ. Anat. and Phys.*, vol. 27, p. ii., 1893.

70. Tattooed Skin. *Proc. Anatomical Soc. in Journ. Anat. and Phys.*, vol. 27, p. ii., 1893.

Human Heart with Moderator Band in Left Ventricle. *Proc. Anatomical Soc. in Journ. Anat. and Phys.*, vol. 27, p. xix, 1893.

A Phrenic Nerve receiving a Root of Origin from the Descendens Hypoglossi. *Journ. Anat. and Phys.*, vol. 27, 1893.

On a Heart with Moderator Band in Left Ventricle. *Journ. Anat. and Phys.*, vol. 30, 1896.

Notes on the Dissection of a Third Negro. *Journ. Anat. and Phys.*, vol. 31, 1897.

Moderator Band in Left Ventricle and Tricuspid Left Auriculo-Ventricular Valve. *Journ. Anat. and Phys.*, vol. 32, 1898.

A Rare Form of Palatal Fissure. *Journ. Anat. and Phys.*, vol. 33, 1899.

Hyoid Apparatus in Man in which a separate Epi-hyal Bone was developed. *Journ. Anat. and Phys.*, vol. 36, 1902.

II. COMPARATIVE ANATOMY AND ZOOLOGY.

On some Fossil Bovine Remains found in Britain. *Proc. Roy. Phys. Soc. Edin.*, Feb. 1859, vol. 2, 1863; *Edin. Phil. Journ.*, July 1859.

On the Thyroid Gland in the Cetacea, with Observations on the Relations of the Thymus to the Thyroid in these and some other Mammals. 4to. *Trans. Roy. Soc. Edin.*, vol. 4, 1860.

80. Observations on the *Trichina spiralis*. *Edin. Med. Journ.*, Sept. 1860.

On the Structure and Composition of the Integument of the *Orthragoriscus mola*. Plate. *Nat. Hist. Review*, April 1862.

On the Structure of *Chondracanthus lophii*, with Observations on its Larval Form. (Along with H. Season Wilson, M.D.) 4to, plate. *Trans. Roy. Soc. Edin.*, vol. 4, 1862.

On the Structure of *Lerneopoda Dalmanni*, with Observations on its Larval Form. (Along with H. Season Wilson, M.D.) 4to, plate. *Trans. Roy. Soc. Edin.* vol. 4, 1862.

Observations relative to the Anatomical Features of Three Skulls of the Gorilla. (Along with J. G. M. Burt.) *Proc. Roy. Soc. Edin.*, Jan. 1865.

On a Remarkable Mode of Gestation in an Undescribed Species of Arius. *Reports British Assoc. Advance. Science*, Nottingham, p. 78, 1865; *Journ. Anat. and Phys.*, vol. 1, 1867.

Remarks on the Assumption of Male Plumage by the Hen of the Domestic Fowl. *Proc. Roy. Phys. Soc. Edin.*, vol. 3, 1865.

Notes more especially on the Bridging Convolution in the Brain of the Chimpanzee. *Proc. Roy. Soc. Edin.*, vol. 5, 1865.

Two Specimens of *Lerneopoda elongata* attached to the Eyes of the Greenland Shark. *Proc. Roy. Phys. Soc. Edin.*, vol. 3, 1865.

On the Brain of *Dasypus seacinctus*. *Journ. Anat. and Phys.*, vol. 1, 1867.

90. A Contribution to the Anatomy of the Pilot Whale (*Globicephalus melas*). *Journ. Anat. and Phys.*, vol. 2, 1868; *Reports British Assoc. Advance. Science*, Dundee, p. 104, 1867.

On the Bones of a Seal found in Red Clay at Grangemouth, with Remarks on the Species. *Proc. Roy. Soc. Edin.*, vol. 7, 1869.

Further Observations on the Stomach in Cetacea (*Globicephalus melas*). *Journ. Anat. and Phys.*, vol. 3, p. 117, 1869.

Cranium of an apparently new Species of *Arctocephalus*. *Journ. Anat. and Phys.*, vol. 3, 1869.

Preliminary Notice of the Great Finner Whale stranded at Longniddry. *Proc. Roy. Soc. Edin.*, vol. 7, 1869.

An Account of the Great Finner Whale stranded at Longniddry (*Balaenoptera Sibbaldi*). *Trans. Roy. Soc. Edin.*, 4to, four plates, vol. 26, 1870; *Journ. Anat. and Phys.*, vol. 5.

On the Gravid Uterus and on the Arrangement of the Foetal Membrane in the Cetacea (*Orca gladiator*). *Trans. Roy. Soc. Edin.*, 4to, two plates, vol. 26, 1870; *Journ. Anat. and Phys.*, vol. 5, 1871.

On the Sternum and Ossa Innominata of the Longniddry Whale. *Journ. Anat. and Phys.*, vol. 4, p. 271, 1870.

On the Species of Seal found in Scotland in Beds of Glacial Clay. *Journ. Anat. and Phys.*, vol. 4, p. 260, 1870.

Note on the Capture of the Grey Seal (*Halichoerus grypus*) on the Coasts of Fife and Forfar. *Journ. Anat. and Phys.*, vol. 4, 1870.

100. On the Transverse Processes of the Seventh Cervical Vertebra in *Balaenoptera Sibbaldi*. *Journ. Anat. and Phys.*, vol. 5, 1871.

On the so-called Two-headed Ribs in Whales and Man. *Journ. Anat. and Phys.*, vol. 5, p. 348, 1871.

On the Capture of a Sperm Whale on the Coast of Argyleshire, with a Notice of other Specimens caught on the Coast of Scotland. *Proc. Roy. Soc. Edin.*, vol. 7; *Journ. Anat. and Phys.*, vol. 5, 1871.

Notes on the Cervical Vertebrae of Steeppireythr (*Balaenoptera Sibbaldi*). *Rep. Brit. Assoc. Advance. Science*, Edinburgh, p. 144, 1871.

On Crystals in the Connective Tissue of the Thymus in the Nylghau. *Journ. Anat. and Phys.*, vol. 4, p. 196, 1871.

Some Observations on the Dentition of the Narwhal. *Proc. Roy. Soc. Edin.*, vol. 7, 1872; *Journ. Anat. and Phys.*, vol. 7, p. 75, 1873.

Additional Notes on the Occurrence of the Sperm Whale in the Scottish Seas. *Proc. Roy. Soc. Edin.*, vol. 7, p. 632, 1872.

The Sternum of the Sperm Whale (*Physeter macrocephalus*). *Journ. Anat. and Phys.*, vol. 6, p. 377, 1872.

On the Occurrence of *Ziphius cavirostris* in the Shetland Seas, and a Comparison of its Skull with that of Sowerby's Whale. *Trans. Roy. Soc. Edin.*, 4to, two plates, vol. 7, 1872; *Journ. Anat. and Phys.*, vol. 7, 1872.

On the Placentation of the Sloths (*Choloepus Hoffmanni*). *Trans. Roy. Soc. Edin.*, 4to, four plates, vol. 27, 1872; *Proc. Roy. Soc. Edin.*, vol. 8; *Journ. Anat. and Phys.*, vol. 8, p. 364, 1874; *Journal de Zoologie*, vol. 3, p. 81.

110. On the Placentation of Seals (*Halichoerus grypus*). *Trans. Roy. Soc. Edin.*, 4to, four plates, vol. 27; *Proc. Roy. Soc. Edin.*, vol. 8, 1872; *Journal de Zoologie*, vol. 5, p. 205.

A Contribution to the Visceral Anatomy of the Greenland Shark (*Lemargus borealis*). *Journ. Anat. and Phys.*, vol. 7, 1873; *Proc. Roy. Soc. Edin.*, vol. 8.

On the Edentulous Condition of the Skull of the Grey Seal. *Journ. Anat. and Phys.*, vol. 7, 1873.

On the so-called Priekle or Claw at the End of the Tail of the Lion and other Felines. *Journ. Anat. and Phys.*, vol. 7, 1873.

Note on a Bidental Skull of a Narwhal. *Journ. Anat. and Phys.*, vol. 8, 1874.

Additional Observations on the Anatomy of the Greenland Shark. *Journ. Anat. and Phys.*, vol. 8, 1874.

The Placenta in Ruminants—a Deciduate Placenta. *Proc. Roy. Soc. Edin.*, vol. 8, 1875; *Journal de Zoologie*, vol. 5, p. 121.

Observations on the Spiny Shark (*Echinorhinus spinosus*). *Journ. Anat. and Phys.*, vol. 9, 1875.

Phoca grænlandica, Harp Seal, caught in Morecambe Bay, as a British Species of Seal. *Journ. Anat. and Phys.*, vol. 9, 1875. Also a specimen from the North of Shetland in *Annals of Scottish Natural History*, p. 117, 1902.

On the Presence of Spiracles in the Porbeagle Shark. *Journ. Anat. and Phys.*, vol. 9, 1875.

120. Note on the Placentation of *Hyrax capensis*. *Proc. Roy. Soc.*, London, vol. 24, 1875.

On the Placentation of the Lemurs. *Phil. Trans. Roy. Soc.*, London, 4to, three plates, vol. 166; *Journ. Anat. and Phys.*, vol. 12, 1876; *Journal de Zoologie*, vol. 6, p. 359.

On the Placentation of the Cape Ant-eater (*Orycteropus capensis*). *Journ. Anat. and Phys.*, vol. 10, 1876; *Journal de Zoologie*, vol. 6, p. 97.

Additional Note on the Dentition of the Narwhal. *Journ. Anat. and Phys.*, vol. 10, p. 516, 1876.

On the Structure of the Non-Gravid Uterine Mucous Membrane in the Kangaroo. *Journ. Anat. and Phys.*, vol. 10, p. 513, 1876.

Note on the Placental Area in the Cat's Uterus after Delivery. *Journ. Anat. and Phys.*, vol. 10, 1876.

A Further Contribution to the Placentation of the Cetacea (*Monodon monoceros*). *Proc. Roy. Soc. Edin.*, vol. 9, p. 103, 1876.

On the Structure of the Diffused, Polycotyledonary and the Zonary Forms of Placenta. *Journ. Anat. and Phys.*, vol. 10, 1876.

Lectures on the Comparative Anatomy of the Placenta, delivered in the Royal College of Surgeons of England. 1st series, 1875. A. & C. Black, Edinburgh. Three plates, 8°, 1876.

Lectures on the Comparative Anatomy of the Placenta, delivered in the Royal College of Surgeons of England. 2nd series, abstract in *Lancet*, June and July 1876.

130. Some General Observations on the Placenta, with especial reference to the Theory of Evolution. *Journ. Anat. and Phys.*, plates, vol. 11, p. 33, 1877; *Journal de Zoologie*, vol. 6, p. 41.

Notes on the Lobules and the Connective Tissue of the Camel's Liver. *Journ. Anat. and Phys.*, vol. 11, 1877.

On the Placentation of the Apes, with a Comparison of the Structure of their Placenta with that of the Human Female. 4to, two plates. *Phil. Trans. Roy. Soc.*, London, vol. 169; *Journ. Anat. and Phys.*, vol. 12, p. 495, 1878.

On the Gravid Uterus and Placenta of *Hyomoschus aquaticus*. (Along with A. H. Garrod.) *Proc. Zool. Soc. Lond.*, plate, p. 682, 1878; *Journ. Anat. and Phys.*, vol. 14.

Some Rare Prints of Stranded Sperm Whales. *Journ. Anat. and Phys.*, vol. 12, 1878.

The Oviducts of the Greenland Shark. *Journ. Anat. and Phys.*, vol. 12, 1878.

The Foetal Membranes of the Reindeer (*Rangifer tarandus*). *Journ. Anat. and Phys.*, vol. 12, p. 601, 1878.

On the Form and Structure of the Teeth of *Mesopiodon Layardi* and *Mesopiodon Sowerbyi*. *Proc. Roy. Soc. Edin.*, vol. 10; *Journ. Anat. and Phys.*, vol. 13, 1879; *Challenger Reports, Zoology*, pt. 4, 1880.

The Cotyledonary and Diffused Placenta of the Mexican Deer (*Cervus mexicanus*). *Journ. Anat. and Phys.*, vol. 13, 1879.

- The Placenta of the Hog-deer (*Cervus porcinus*). *Journ. Anat. and Phys.*, vol. 13, p. 94, 1879.
140. The Pori Abdominales in some Sharks. *Journ. Anat. and Phys.*, vol. 14, 1880.
- The Foetal Membranes of an Eland (*Oreos canna*). *Journ. Anat. and Phys.*, vol. 14, p. 241, 1880.
- The Structure of the Comb-like Branchial Appendages and of the Teeth of the Basking Shark (*Selache maxima*). *Journ. Anat. and Phys.*, vol. 14, 1880.
- Report on the Bones of the Cetacea collected during the voyage of H.M.S. "Challenger," 1873-76. *Challenger Reports, Zoology*, 4to, three plates, vol. 1, pt. 4, 1880.
- The Form and Proportion of a Foetal Indian Elephant. *Journ. Anat. and Phys.*, plate, vol. 15, 1881.
- A Specimen of Sowerby's Whale (*Mesoplodon bidens*) captured in Shetland. *Journ. Anat. and Phys.*, vol. 16; *Proc. Roy. Soc. Edin.*, vol. 11, 1882.
- A Specimen of Rudolphi's Whale (*Balænoptera borealis*) captured in the Firth of Forth. *Journ. Anat. and Phys.*, vol. 16; *Proc. Roy. Soc. Edin.*, vol. 11, 1882.
- The Dumbbell-shaped Bone in the Palate of Ornithorhynchus compared with the Pre-nasal Bone of the Pig. *Journ. Anat. and Phys.*, vol. 19, 1885.
- On Fossil Bones of Mammals obtained during Excavations at Silloth. *Proc. Roy. Phys. Soc. Edin.*, vol. 8, 1885.
- Additional Notes on the Oviducts of the Greenland Shark. *Journ. Anat. and Phys.*, vol. 19, 1885.
150. Anatomy of a Second Specimen of Sowerby's Whale from Shetland. *Journ. Anat. and Phys.*, vol. 20, 1886; *Proc. Roy. Soc. Edin.*, p. 279, 1886.
- On the Occurrence of the Bottle-nosed Whale (*Hyperoodon rostratus*) in the Scottish Seas, with Observations on its External Characters. *Proc. Roy. Phys. Soc. Edin.*, vol. 9, 1887.
- Notice of the Capture of *Delphinus delphis* in the Firth of Forth. *Proc. Roy. Soc. Edin.*, vol. 9, 1887.

Report on the Scals collected during the Voyage of H.M.S. "Challenger." *Challenger Reports, Zoology*, 4to, ten plates, vol. 26, pt. 68, 1887.

The Pineal Body in the Brains of the Walrus and Seals. *Journ. Anat. and Phys.*, vol. 22; *Proc. Roy. Soc. Edin.*, vol. 15, 1888; *Challenger Report on Seals, Zoology*, pt. 68.

Comparison of the Convolutions of the Seals and Walrus with those of the Carnivora and of Apes and Man. *Journ. Anat. and Phys.*, vol. 22, 1888; also in *Challenger Reports, Zoology*, vol. 26.

An Additional Contribution to the Placentation of the Lemurs. *Proc. Roy. Soc.*, London, vol. 44, 1888.

On the Occurrence of Sowerby's Whale in the Firth of Forth. *Proc. Roy. Phys. Soc. Edin.*, vol. 10, 1888.

On the Placentation of *Halicore Dugong*. 4to, three plates. *Trans. Roy. Soc. Edin.*, vol. 35, 1889; *Journ. Anat. and Phys.*, vol. 23.

Notes on an Aged Male *Hyperoodon rostratus* from Shetland. *Proc. Roy. Phys. Soc. Edin.*, vol. 10, 1889.

160. Notes on the White-beaked Dolphins (*Delphinus albirostris*) from Stonehaven. *Proc. Roy. Phys. Soc. Edin.*, vol. 10, 1889.

Additional Observations on the Stomach in the Ziphioid and Delphinoid Whales. *Journ. Anat. and Phys.*, vol. 23, 1889.

The Convolutions of the Brain: A Study in Comparative Anatomy. *Journ. Anat. and Phys.*, vol. 25, p. 105, 1891; *Trans. International Medical Congress, Berlin*, 1890; published in 1891; separate publication, London. Abstract in *Dublin Journ. Med. Science*, May 1891.

The Occurrence of Risso's Dolphin (*Grampus griseus*) in Shetland. *Proc. Roy. Phys. Soc. Edin.*, vol. 11, 1891.

Notes on some of the Viscera of Risso's Dolphin (*Grampus griseus*). *Journ. Anat. and Phys.*, vol. 26, 1892.

The Lesser Rorqual (*Balaenoptera rostrata*) in the Scottish Seas, with Observations on its Anatomy. *Proc. Roy. Soc. Edin.*, vol. 19, 1892.

Cerebral Hemispheres in *Ornithorhynchus paradoxus*. *Journ. Anat. and Phys.*, vol. 26, 1892.

On the Antlers of a Roe-Deer (*Cervus capreolus*). *Proc. Anatomical Soc. in Journ. Anat. and Phys.*, vol. 27, p. ii., 1893.

The Fœtus of *Halicore Dugong* and *Manatus senegalensis*. *Journ. Anat. and Phys.*, vol. 28, 1894.

Further Notes on the Brain of *Ornithorhynchus paradoxus*. *Journ. Anat. and Phys.*, vol. 30, 1896.

170. A Note on the Angler Fish (*Lophius piscatorius*). *Field Naturalists' Quarterly*, vol. 1, p. 185, 1902.

The Oecurrence of the Sperm Whale or Cæhalot in the Shetland Seas, with Notes on the Tympano-petrous bones of Physeter, Kogia, and other Odontoceti. *Proc. Roy. Soc. Edin.*, May 18, 1903; *Annals of Scottish Natural History*, p. 4, 1904.

On *Pennella balaenoptera*—a Crustacean parasitic on a Finner Whale (*B. musculus*). 4to, five plates. *Trans. Roy. Soc. Edin.*, vol. 41, 1905.

Note on a Rare Dolphin (*Delphinus acutus*) recently stranded on the Coast of Sutherland. *Proc. Roy. Soc. Edin.*, vol. 26; *Annals of Scottish Natural History*, July 1906.

The Skeleton of a Sowerby's Whale (*Mesoplodon Sowerbyi*) stranded at St Andrews, and the Morphology of the Manus in *Mesoplodon*, *Hyperoodon*, and the *Delphinidæ*. *Proc. Roy. Soc. Edin.*, vol. 29, 1909.

The Morphology of the Manus in *Platanista gangetica*—the Dolphin of the Ganges. Four plates. *Proc. Roy. Soc. Edin.*, vol. 30, 1910.

III. PATHOLOGICAL ANATOMY.

Two Cases of Aneurism of the Descending Thoracic Aorta producing Obstruction of the Thoracic Duct. *Edin. Med. Journ.*, May 1859.

Case of Extensive Adhesion of the Soft Palate to the Posterior Wall of the Pharynx, with a Description of the Parts seen on Dissection. *Edin. Med. Journ.*, Jan. 1860; *Proc. Roy. Med.-Chir. Soc.*, London, 1859.

On Separation and Transplantation of the Ovary, due to Atrophy of the Broad Ligament and Fallopian Tube; and on the Spontaneous Separation of Sub-peritoneal Fibrous Tumours of the Uterus. *Edin. Med. Journ.*, Jan. 1861.

On the Present Aspect of the Doctrines of Cellular Pathology: a Lecture delivered at an Evening Meeting of the Royal College of Surgeons, Edinburgh, 27th Feb. *Edin. Med. Journ.*, April 1863.

180. On some Congenital Malformations of the Intestinal Canal. *Edin. Med. Journ.*, Aug. 1863.

Notice of a large Calcareous Tumour of the Uterus. *Edin. Med. Journ.*, Sept. 1864.

On the Textural Changes which take place in Inflammations of the Serous Membranes. *Edin. Med. Journ.*, April 1864; reprinted in *Dublin Med. Press*, 1864.

Case of Intra-cranial Cyst containing Hair. *St Barthol.'s Hosp. Reports*, vol. 2, 1866.

Ankylosis of the Atlas, Axis, and Occipital Bone. *St Barthol.'s Hosp. Reports*, vol. 3, 1867.

An Account of an Enormous Tumour presenting the Type of Structure of the Chorda Dorsalis. *Journ. Anat. and Phys.*, vol. 2, 1868.

Case of Multiple Lymphoid Tumours within the Abdominal Cavity. *St Barthol.'s Hosp. Reports*, vol. 6, 1870.

An Enormous Cartilaginous Tumour of the Costal Cartilages and Sternum. *St Barthol.'s Hosp. Reports*, vol. 6, 1870.

Exostosis within the External Auditory Meatus. *Journ. Anat. and Phys.*, vol. 13, 1879.

The Relation of the Alveolar Form of Cleft Palate to the Incisor Teeth and the Intermaxillary Bones. *Journ. Anat. and Phys.*, vol. 19, 1885; *Proc. Roy. Soc. Edin.*, Dec. 1884; *Journ. British Dental Assoc.*, 1885.

190. The Relationship of the Alveolar Form of Cleft Palate to the Incisor Teeth. *Proc. Anat. Soc.*, p. viii., in *Journ. Anat. and Phys.*, vol. 25, 1891.

IV. ANTHROPOLOGY.

On Cranial Deformities, more especially on the Scaphocephalic Skull. *Reports Brit. Assoc. Advance. Science*, Newcastle-on-Tyne, p. 124, 1863; *Nat. Hist. Review*, Jan. 1864.

Anatomical Characters of a Human Cranium found at Amiens. *Anthrop. Review*, vol. 1; *Reports British Assoc. Advance. Science*, Newcastle-on-Tyne, 1863; *Quart. Journ. of Science*, April 1864.

Notes on the Characters of a Cranium found in a Short Cyst at Duns. *Proc. Soc. Antiq. Scot.*, Feb. 1864, vol. 5, 1865.

On Human Crania allied in Anatomical Characters to the Engis and Neanderthal Skulls. *Quart. Journ. of Science*, plate, April and Oct., 1864; *Proc. Roy. Soc. Edin.*, vol. 5.

Report on some Human Crania found in Stone Coffins near the "Catstane," Kirkliston. *Proc. Soc. Antiq. Scot.*, April 1865, vol. 6, 1868.

Note on a Human Skull found at Fyrish, Inverness-shire. *Proc. Soc. Antiq. Scot.*, March 1865, vol. 6, 1868.

Notice of some Human and other Remains recently found at Kelso. *Proc. Soc. Antiq. Scot.*, June 1865, vol. 6, 1868.

On Cranial Deformities: Trigono-cephalus. *Nat. Hist. Review*, Jan. 1865; *Reports British Assoc. Advance. Science*, Bath, p. 129, 1864.

On some Congenital Deformities of the Human Skull. *Proc. Roy. Soc. Edin.*, May 1, 1865; *Edin. Med. Journ.*, July and Aug. 1865.

200. Notice of the Cranium of a Manganya Negro. *Proc. Roy. Phys. Soc. Edin.*, vol. 3, 1865.

Negro Crania from Old Calabar, West Africa. (Along with J. A. Smith, M.D.) *Journ. Anat. and Phys.*, vol. 3, 1869.

Address to the Department of Anthropology of the British Association. *Reports Brit. Assoc. Advance. Science*, Edinburgh, p. 144, 1871.

On Human and Animal Bones and Flints from a Cave at Oban, Argyllshire. *Reports British Assoc. Advance. Science*, Edinburgh, p. 160, 1871.

Ethnological Enquiries especially connected with the Western Esquimaux. *Journ. Anthropol. Inst.*, vol. 2, p. 305, 1873. Also in "Contributions to the Craniology of the People of the Empire of India." Part 1, vol. 22, p. 745, 1899.

Two Masks and a Skull from New Guinea. Plate. *Journ. Anat. and Phys.*, vol. 14, 1880.

The Cranial Characters of the Admiralty Islanders. *Trans. Internat. Medical Congress, London*, vol. 1, p. 146, 1881; *Journ. Anat. and Phys.*, vol. 16; *Challenger Reports, Zoology*, pt. 29, 1884, *in extenso*.

Report on the Human Crania and other Bones of the Skeletons collected during the Voyage of H.M.S. "Challenger." Part I. Crania. 4to, seven plates. *Challenger Reports, Zoology*, pt. 29, 1884.

The Lumbar Curve of the Spinal Column in several Races of Men. *Journ. Anat. and Phys.*, vol. 20; *Challenger Reports*, pt. 47, 1886.

The Index of the Pelvic Brim as a Basis of Classification. *Journ. Anat. and Phys.*, vol. 20; *Challenger Reports, Zoology*, pt. 47, 1886.

210. Sacral Index in various Races of Mankind. *Journ. Anat. and Phys.*, vol. 20; *Challenger Reports, Zoology*, pt. 47, 1886.

Report on the Human Crania and other Bones of the Skeletons collected during the Voyage of H.M.S. "Challenger." Part II. Bones of the Skeleton. 4to, three plates. *Challenger Reports, Zoology*, pt. 47, 1886.

Note on the Navajo Indian Skull. *Journ. Anat. and Phys.*, vol. 20, 1886.

Variability in Human Structure as displayed in Different Races of Men, with especial reference to the Skeleton. *Journ. Anat. and Phys.*, vol. 21, 1887.

On Heredity. Presidential Address, Section H, Anthropology. *Reports Brit. Assoc. Advance. Science*, Newcastle-on-Tyne, p. 756, 1889; *Nature*, vol. 40. *Times*, September 14, 1889.

On Implements of Stag's Horn associated with Whales' Skeletons, found in the Carse of Stirling. *Reports Brit. Assoc. Advance. Science*, Newcastle-on-Tyne, p. 789, 1889; *Nature*, vol. 40.

Double Right Parietal Bone in an Australian Skull. *Journ. Anat. and Phys.*, vol. 25, 1891.

The Relations of the Dentary Arcades in the Crania of Australian Aborigines. *Journ. Anat. and Phys.* vol. 25, 1891.

On a Coiffure from the South Seas. *Reports Brit. Assoc. Advance. Science*, Edinburgh, p. 906, 1892.

On Human and Animal Remains found in Caves at Oban. *Proc. Soc. Antiq. Scot.*, May 13, 1895, vol. 5, 3rd series, p. 410.

220. On M. Dubois' Description of Remains recently found in Java, named by him *Pithecanthropus erectus*. With remarks on so-called Transitional Forms between Apes and Man. *Proc. Roy. Soc. Edin.*, vol. 20; *Journ. Anat. and Phys.*, vol. 29, 1895.

Some Distinctive Characters of Human Structure. Presidential Address, Section H, Anthropology. *Reports British Assoc. Advance. Science*, Toronto, p. 268, 1897; *Nature*, vol. 56.

On Spear-heads made of Glass, from West Australia. *Reports Brit. Assoc. Advance. Science*, Toronto, p. 796, 1897.

Early Man in Scotland. *Proceedings of the Royal Institution of Great Britain*, March 26, 1897; *Nature*, vol. 57: *Annals of Scottish Natural History*, pp. 129, 193, 1898.

- A Decorated Sculptured Human Skull from New Guinea.
Journ. Anat. and Phys., vol. 32, p. 353, 1898.
- Ten Decorated and Sculptured Skulls from New Guinea.
Plates I.-VI. *Proc. Roy. Soc. Edin.*, vol. 22, p. 553,
1899.
- Contributions to the Craniology of the People of the Empire
of India. Part I. The Hill Tribes of the N.E. Frontier
and the People of Burmah. 4to, three plates. *Trans.
Roy. Soc. Edin.*, vol. 22, 1899.
- An Australian Skull with three Supernumerary Upper Molar
Teeth. *Journ. Anat. and Phys.*, vol. 34, 1900.
- Contributions to the Craniology of the People of the Empire
of India. Part II. The Aborigines of Chútá Nágpúr,
the Central Provinces, the People of Orissa, the Veddahs
and Negritos. 4to, four plates. *Trans. Roy. Soc. Edin.*,
vol. 40, 1900.
- On a Mould showing the Finger Prints of a Roman Sculptor.
Journ. Anthropol. Instit., vol. 30; *Reports Brit. Assoc.
Advance. Science*, Bradford, p. 905, 1900.
230. Double Left Parietal Bone in a Scottish Skull. *Journ.
Anat. and Phys.*, vol. 35, 1901.
- Crania Ethnica Philippinica. Review in *Man*, vol. 1-2,
No. 149, 1901.
- An Account of a Chambered Cairn and Cremation Cists at
Taversöe, Tuick, near Trumland House, in the Island of
Rousay, Orkney. *Proc. Soc. Antiqu. Scot.*, vol. 37, p. 73,
1902.
- Description of the Human Remains found in the Chambers
of the Cairn at Kewing Hill, Firth, Orkney. *Proc.
Soc. Antiqu. Scot.*, vol. 36, p. 733, 1902.
- A Contribution to the Craniology of the People of Scotland.
Part I. Anatomical. 4to, five plates. *Trans. Roy. Soc.
Edin.*, vol. 40, 1903; *Journ. Anat. and Phys.*, vol. 37,
p. 392, 1903.
- Contributions to the Craniology of the People of the Empire
of India. Part III. The Natives of the Madras Presi-
dency, Thugs, Veddahs, Tibetans, and Seistanis. 4to,
four plates. *Trans. Roy. Soc. Edin.*, vol. 45, 1906.

A Contribution to the Craniology of the Natives of Borneo, the Malays, the Natives of Formosa, and the Tibetans. 4to, five plates. *Trans. Roy. Soc. Edin.*, vol. 45, 1907.

The Craniology, Affinities, and Deseent of the Aborigines of Tasmania. Part I. 4to, four plates. *Trans. Roy. Soc. Edin.*, vol. 46, 1908.

The Aborigines of Tasmania. Part II. The Skeleton. 4to, two plates. *Trans. Roy. Soc. Edin.*, vol. 47, p. 411, 1910.

V. GENERAL ADDRESSES, REVIEWS, ETC.

Anatomy as taught in the University of Edinburgh. An Introductory Lecture, Nov. 4, 1867. Edinburgh, 1867.

240. Anatomieal Memoirs of Professor John Goodsir, F.R.S., collected and edited by Wm. Turner. Two volumes, Edinburgh, 1868.

Review of Handbueh der systematischen Anatomie des Menschen, von Professor J. Henle. *Journ. Anat. and Phys.*, vol. 2, p. 387, 1868.

Medicine as a Profession. A Graduation Address, Aug. 1, 1873. *Edin. Med. Journ.*, 1873.

Note on a Copy of the "Christianismi Restitutio" by Michael Servetus, in the Library of the University of Edinburgh, in a Letter to Dr Robert Willis. *Athenæum*, April 27, 1878.

Address at the Opening of the Anatomical Department of the New Medical Buildings of the University of Edinburgh, 1880. *Lancet*, Nov. 1880.

Memorandum on the Report of the Royal Commissioners appointed to inquire into the Medical Aets, p. xxvii. London, 1882; presented to both Houses of Parliament. [C.—3259—1.]

The Universities of Scotland and the Election of their Representatives to the General Medical Council. May 1887. Pamphlet.

The Physieian—a Naturalist. A Graduation Address, Aug. 1, 1888. *Edin. Med. Journ.*, Sept. 1888.

Presidential Address to the Royal Physieal Society. *Proceedings*, vol. 10, 1888.

Address on Medieal Education and University Extension, delivered at Queen's College, Birmingham, Oct. 1, 1890. *Birmingham Medical Review*, Nov. 1890.

250. The Scottish Universities and their Medical Statutes. *Medical Magazine*, Oct. 1892.

Address at the Opening of the New Anatomical Buildings in the University of Oxford. *Lancet*, Oct. 21, 1893.

The "Challenger" Expedition: A Review. *Scotsman*, March 11, 1895.

Presidential Addresses to the General Medical Council, 1898 to 1904. *Minutes*, vols. 35–41.

Presidential Address to the British Association for the Advancement of Science, Bradford. *Reports*, p. 3, 1900; *Nature*, vol. 62, p. 440.

Address on Public Museums in Edinburgh to the Museum Association, Edinburgh Conference. *Museum Journal*, 1901.

The Scottish Universities and Recent Legislation. A Graduation Address, April 9, 1903. Pamphlet.

Preface to vol. 40 of the *Journal of Anatomy and Physiology*, 1906.

The Rise of Scientific Study in Scotland: Presidential Address at the Opening of the New Home of the Royal Society of Edinburgh, Nov. 8, 1909. 4to, plates. *Trans. Roy. Soc. Edin.*, Index volume, 1910.

Lectures on Surgical Pathology, by Sir James Paget, F.R.S. Second edition, revised and edited by Wm. Turner. London, 1863. Third edition, London, 1870.

260. Scientific Papers and Addresses by Professor George Rolleston, F.R.S. Arranged and edited by Wm. Turner. Two volumes, Oxford, 1874.

22 LIST OF PUBLISHED WRITINGS BY SIR WILLIAM TURNER.

Review of A Book of Whales, by F. E. Beddard, F.R.S.
London, 1900. *Nature*, vol. 61, p. 585, 1900.

Review of *Erinnerungen aus Meinem Leben*, von Professor
A. von Kölliker (Leipzig, 1899). *Journ. Anat. and
Phys.*, Jan. 1900.

Review of the Memoirs and Letters of Sir James Paget
(London, 1901), in *Edinburgh Medical Journal*, vol. 10,
1901

One of the Founders and Conductors of the *Journal of
Anatomy and Physiology*, vols. 1 to 45, 1867-1911.

IN MEMORIAM.

John Goodsir, F.R.S., 1867. *Scotsman*, March 11, 1867;
Proc. Roy. Soc., London, vol. 16; *The Student*, Jan. 31,
1908.

A. B. Stirling, Assistant Conservator, Anatomical Museum,
1881. *Scotsman*, Sept. 24, 1881.

James Matthews Duncan, M.D., F.R.S., 1890. *St Barthol.'s
Hosp. Reports*, vol. 26, 1891.

Daniel John Cunningham, M.D., F.R.S. *British Medical
Journal*, July 3, 1909; *Journ. Anat. and Phys.*,
vol. 44, 1909.
